Detail-oriented Software Engineering student with a Programming Foundation Qualification, two Certiport IT Specialist certifications, and hands-on experience in Java, C#, Python, and web technologies. Practical background in office administration with proven organizational and communication skills. Seeking an entry-level software developer or IT support role to apply technical knowledge and grow within a professional team.

TECHNICAL SKILLS

- **Programming Languages:** Java, C#, Python, JavaScript, SQL
 - **Web Technologies:** HTML5, CSS3, Responsive Design, Bootstrap
 - **Development Tools:** Git, GitHub, Visual Studio, VS Code, IntelliJ IDEA
 - **Methodologies:** Object-Oriented Programming (OOP), Agile, SDLC
 - **Core Competencies:** Debugging, Problem-Solving, Version Control, Mobile-First Design
-

CERTIFICATES

- **Certiport IT Specialist – HTML and CSS** (Certified)
 - **Certiport IT Specialist – JavaScript** (Certified)
-

EDUCATION

Diploma in Software Engineering (In Progress)

CTU Training Solutions | Expected 2026

Programming Foundation

CTU Training Solutions | 2024

National Senior Certificate (Matric)

Hoërskool Coligny | 2023

TECHNICAL PROJECTS

Student Record Management System | Java, C#, OOP

- Developed a full-featured desktop application to manage student records with Create, Read, Update, and Delete (CRUD) functionality

- Implemented object-oriented design patterns including encapsulation and inheritance for code reusability
- Integrated data validation and error handling to ensure data integrity
- Utilized file I/O operations for persistent data storage

Personal Portfolio Website | HTML5, CSS3, JavaScript

- Designed and built a fully responsive portfolio website from scratch showcasing professional projects and technical skills
- Implemented modern UI/UX principles including CSS Grid, Flexbox, and media queries for optimal mobile experience
- Added interactive elements using vanilla JavaScript to enhance user engagement

Interactive Task Tracker Web App | HTML, CSS, JavaScript

- Built a dynamic task management application with add, edit, delete, and filter features
- Implemented local storage API for data persistence across browser sessions
- Applied DOM manipulation and event handling for real-time user interaction
- Ensured cross-device responsiveness and accessibility compliance

WORK EXPERIENCE

Personal Assistant & Office Administrator

Xileyi Holdings | December 2023 – December 2024

- Coordinated office maintenance, ensuring a clean, safe, and well-maintained work environment
- Managed incoming and outgoing phone calls and emails, handling queries professionally
- Scheduled and organized meetings, coordinated calendars, booked meeting rooms, and prepared necessary materials
- Supported employees and visitors by answering queries and directing them to appropriate personnel
